

PUBLIC WORKS NEWS BRIEFS

The City recently repaved Garfield Avenue from Newland Street to Magnolia Street with a two-inch rubberized asphalt concrete (RAC) surface which contains crumb rubber derived from scrap tires. The project diverted more than 3,000 waste tires, that otherwise would end up in a landfill.

City of Huntington Beach Public Works Department CC-1372 Garfield Avenue Rehabilitation Project from Newland Street to Magnolia Street

Funded by a Grant from:

CalRecycle

California Department of Resources, Recycling and Recovery

This Project Repaved a City Street with Rubberized Asphalt
Concrete and diverted over 3,000 Waste Tires from
California's Landfills

May 2011
